Building engineering organizations for the AI era.

I'm Jashyawanta Huidrom — an engineering leader with 20+ years of experience building software, platforms and high-performing teams.

My focus today is where engineering leadership, platform thinking and AI-native development come together.

SCROLL TO EXPLORE

AT A GLANCE

Experience that spans people, platforms and transformation.

20+

Years in software
engineering

50+

Engineers led across
teams

5

Scrum teams managed at
scale

AI

Engineering
transformation focus

From enterprise platforms and identity to data, agentic AI and engineering productivity — I enjoy taking complex engineering problems and turning them into systems that teams can build on.
